(1) RECONSIDERATION OF PTO FORM-1631

Specifically, it is stated in the Notice that Fig. 1 is not listed in the "Brief Description of the Drawings" in the specification. It is respectfully submitted that the Notice is in error because the patent application does not contain a "Brief Description of the Drawings". Therefore, it is respectfully submitted that there cannot be an inconsistency.

Indeed, page 18, line 13, of the allowed Specification describes Fig. 1, and it is respectfully submitted that Fig. 1 is consistent with respect to that description.

Withdrawal of the Notice is therefore requested.

(2) PROVISIONAL AMENDMENT

To the extent the Patent Office is requiring amendment of the above-mentioned patent application to include a "Brief Description of the Drawing", Applicants respectfully request the application be amended as indicated on the following page 3.

Please add the following new paragraph after page 2, line 33 of the specification:

BRIEF DESCRIPTION OF DRAWING

Fig. 1 illustrates average pore size and pore size distribution for compositions according to the invention (Examples A, B and C of Example 8) in comparison to alternative compositions (Examples D and E of Example 8).
